Re: Dec 2016 Board Report

Technology Updates

After several years of careful planning, the last phase of wireless deployment went live on Monday, Dec 12. All district-provided devices are now connected to a hidden network with a very lengthy password. This allows all laptops and tablets to remain connected to this network without the need to log in every day or when a user changes machines.

Student devices that have been brought from home have the option of using a student wireless network. The major change for them is that they will need to authenticate to the OCUSD network using their own username and password. The gateway works much like a hotel greeting page and only requires authentication once per day. Teacher and staff personal devices will have the same requirement on their wireless network. In this way, should threatening messages be sent from, or illegal content downloaded to a device while on the OCUSD network, the Department of Technology would be able to connect the traffic to a specific user and handle the issue accordingly.

During off hours, a guest network will also become available that allows parents, the press, athletic official, and other guests to use a filtered Internet connection while on site. Because this provides users access without logging in, this network will be disabled during the school day and not available to students and staff.

During our year of testing, wireless coverage has been strong, and there are not currently any signs that we need to add wireless access points in the immediate future. Since one-to-one student devices are not yet on the network, we cannot be absolutely certain of our level of signal saturation. As more devices are connected to our access points, we will constantly be surveying the network to monitor how well the wireless is serving our users.

NIU School Psychology Brownbag

From 2005 to 2007, I attended the school psychology master's program at NIU. It was an extremely rigorous program and prepared me well both for my career as a school psychologist and for my current role in working with data. One of the traditions of this program is a lecture series known as the brownbag. Originally, guest speakers would visit the Department of Psychology over the noon hour, and students and faculty would bring their lunch to eat during the session. Hence, the brownbag lecture series.

While the sessions no longer occur over lunch, guests are still invited to come to campus to talk about the various issues facing the practice of school psychology. One of the current graduate students invited me to speak about

Academics | Activities | Service | Leadership

our use of data at the November 21 meeting. I enjoyed the opportunity to share about the data culture we have created in Oregon.

Highlights of the talk included:

- My background
- Our investments in technology and people
- The organizing principles
 - Connect people with data
 - Get out of their way
- Exemplar projects
 - Early Warning Systems
 - Data Meetings
 - Scheduling Rubric
 - School Improvement Plan Goals

The current faculty members, some of whom were my professors in grad school, reported that the students enjoyed the talk and felt that they learned a lot about what we might call “soft skills” in seeking out data, organizing it in meaningful ways, and communicating it to create change in the schools. I am hoping to make this a more regular occurrence, or perhaps to shift toward visiting during a class meeting.

StudentTracker Reports

We have used the StudentTracker project to follow students in their postsecondary enrollments since the 2010-2011 school year. In our initial data file, we went all the way back to the Class of 2004 so we could have historical data from the start. Every November, the National Student Clearinghouse matches our graduates file with current college enrollments and sends us a new report. The new reports, including the Class of 2016 and enrolments from the 2016-2017 school year, are attached.

Transportation Software

Robin Cervený and I are beginning the process of reviewing software packages to replace TransFinder. This current solution is an aging product that has fallen behind its peers, both in its ability to integrate with student information systems and in its own feature set. Some of the priorities we have identified include:

- Ability to place students directly on routes after addresses have been geocoded
- Realtime transfer of emergency release information from PowerSchool to the transportation solution
- Scheduling of special trips
- Route efficiency improvements
- Integration with bus location tracking hardware and software
- Passback of route information into PowerSchool

If we are able to find a solution that better meets our needs, we will begin planning on how best to acquire the software, given the budget and our current spending priorities. TransFinder does need to be replaced, but the solution we select will be based on a combination of feature set and overall cost to the district.

Respectfully Submitted,

A handwritten signature in black ink that reads 'Adam P. Larsen'.

Adam P. Larsen
Assistant Superintendent
Oregon Community Unit School District 220

Appendix

Graphs (in order of appearance)	Description
Percent of Students Enrolled in College the Fall Immediately Following Graduation From High School (pp. 2-5)	Percentage of high school students who enrolled in a two- or four- year postsecondary institution in the fall semester immediately following graduation. The fall semester immediately following graduation is defined as any enrollment that occurs between August 15 and October 31. Shown only for classes which have completed a fall semester.
Percent of Students Enrolled in College at Any Time During the First Year After High School (pp. 7-10)	Percentage of high school students who enrolled in a two- or four-year postsecondary institution in the academic year immediately following graduation. The first year after high school includes any enrollment that occurs between August 15 of the graduation year and August 14 of the following year . Shown only for classes which have completed the first year after high school.
Percent of Students Enrolled in College at Any Time During the First Two Years After High School (pp. 12-15)	Percentage of high school students who enrolled in a two- or four-year postsecondary institution in the academic year immediately following graduation. The first two years after high school includes any enrollment that occurs between August 15 of the graduation year and August 14 of the second year .Shown only for classes which have completed the first two years after high school.
Percent of Students Enrolled in College the First year After High School Who Returned for a Second Year (pp. 17-20)	Percentage of students who remained enrolled in postsecondary education from the first year to the second year. Note: The graphs show the percentage of students who remained enrolled at any postsecondary institution, not retention at the same institution. Shown only for classes which have completed the first two years after high school.
Percent of High School Class with a College Degree Within Six Years (pp. 22-25)	The six-year degree completion at two- and four- year institutions. Shown only for classes which have completed the six years after high school. Only associate's, bachelor's, and advanced degrees are counted in these rates. Certificates are not included.
Time to College Graduation Within Six Years (p. 27)	This graph shows the time to first degree broken down by the number of academic years since the students graduated from high school.
Class of XXXX Postsecondary Enrollment and Progress (each class year is on its own page)	<p>Progress of a single class of students through postsecondary education. Each segment of the bar chart corresponds to one of the following definitions:</p> <p>GRADUATED: Student has completed an associate's, bachelor's or higher degree (certificates are not included). Once a student is counted as a graduate, he or she is not counted again elsewhere in the report. A graduated record is reported before all other possible categories (e.g. New to College, Retained, etc.)</p> <p>NEW TO COLLEGE: First year that the student was found in the Clearinghouse database.</p> <p>RETAINED: Student was enrolled during the previous year and continues to be enrolled in the current year. The graphs show the student's continued enrollment at any postsecondary institution, not retention at the same institution.</p> <p>RETURNED AFTER STOP OUT: Student was enrolled, did not appear in postsecondary education the following year, and reappeared in a year thereafter.</p> <p>NO LONGER ENROLLED & NOT GRADUATED: Student was enrolled in postsecondary education, but currently is not and there is no record of completion.</p> <p>NOT IN NSC TO DATE: Student was not found in the Clearinghouse database. (Note: Institutions that participate in the Clearinghouse represent more than 93% of the nation's two- and four- year postsecondary enrollment. Students who are enrolled in postsecondary institutions that do not participate in the Clearinghouse are not in the Clearinghouse database.</p>
Most Common Institutions of Enrollment in the Fall Immediately Following Graduation from High School for All Classes by Number of Students	List of the postsecondary institutions where students are most likely to enroll first after they graduate high school.

Term	Definition
High School Class (labeled by graduation year)	Includes all students who graduated high school between September 1 of the previous year and August 31 of the graduation year.
Academic Year	Defined as any collegiate enrollment that occurs between August 15 of one year and August 14 of the following year.
Institutional Level	Indicates the level of degree predominantly offered by the institution (i.e. two-year or four-year).
Institutional Type	Indicates whether the institution is controlled publically or by a private entity.
Institutional Location	Indicates if an institution is in-state or out-of-state based on the comparison between the states where the institution and the high school are located.

StudentTracker Demographics Report

Enrollment During First Fall Immediately After High School by Gender
Effective as of : November 17, 2016

	2009	2010	2011	2012	2013	2014	2015	2016
Total Number of Students in Class	143	124	120	135	148	125	113	110

Female	# of students in cohort	0	0	0	0	0	57	58	54
	# of students meeting outcome	*	*	*	*	*	36	36	31
	% of students meeting outcome	*	*	*	*	*	63.2%	62.1%	57.4%
Male	# of students in cohort	0	0	0	0	0	68	55	56
	# of students meeting outcome	*	*	*	*	*	38	24	27
	% of students meeting outcome	*	*	*	*	*	55.9%	43.6%	48.2%
Unreported	# of students in cohort	143	124	120	135	148	0	0	0
	# of students meeting outcome	97	78	79	93	89	*	*	*
	% of students meeting outcome	67.8%	62.9%	65.8%	68.9%	60.1%	*	*	*

* To protect student privacy, small cell values have been masked for subgroups containing fewer than 10 students; these are represented with a star (*). Because of this, the corresponding point on the graph should be disregarded. Also, if the total number of students in all subgroups for a class is less than 10, then the entire class is suppressed.
