

Date: Dec 18, 2017

From: Adam Larsen, Assistant Superintendent

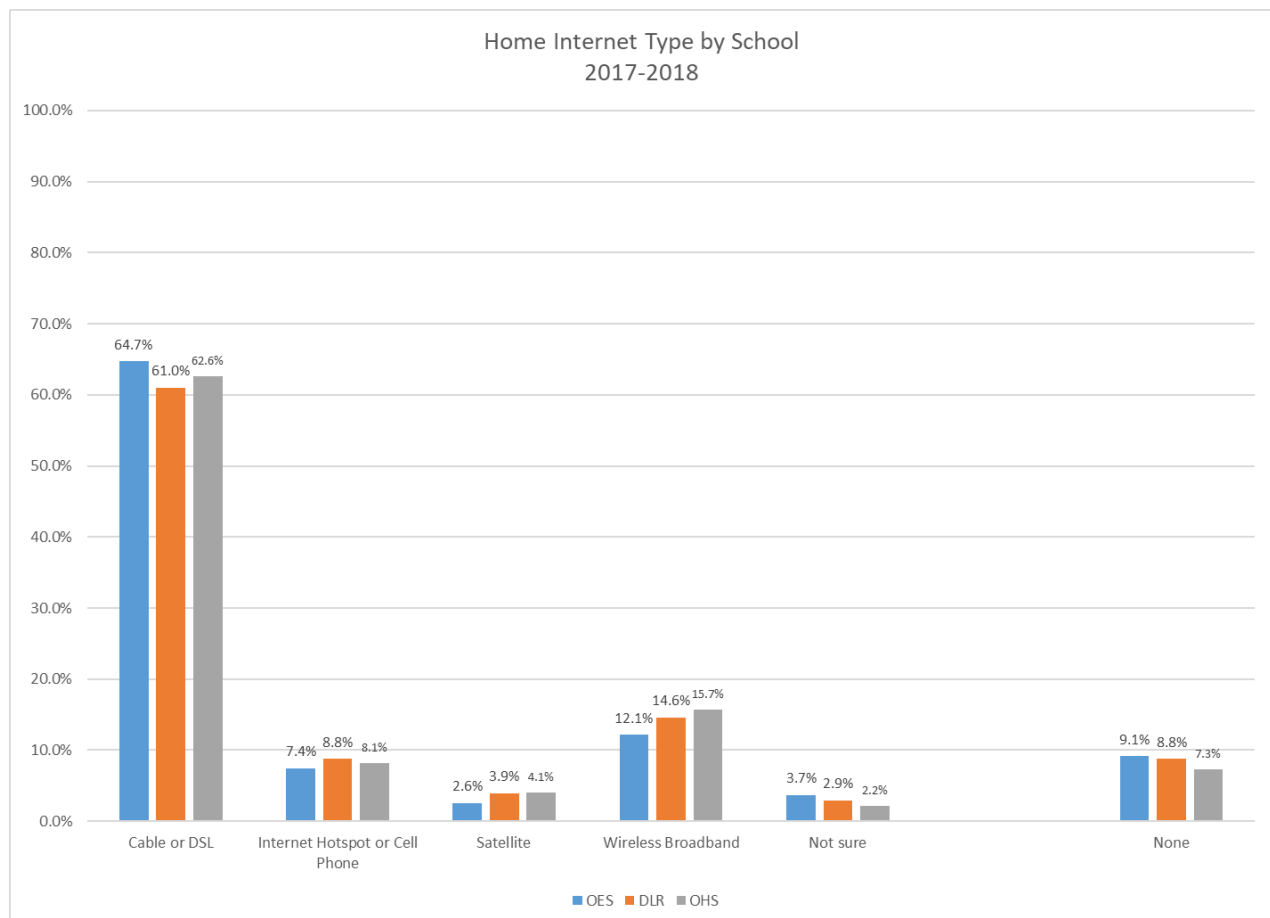

To: Board of Education

Cc: Thomas Mahoney, Superintendent

Re: Dec 2017 Board Report

Technology Survey at Registration

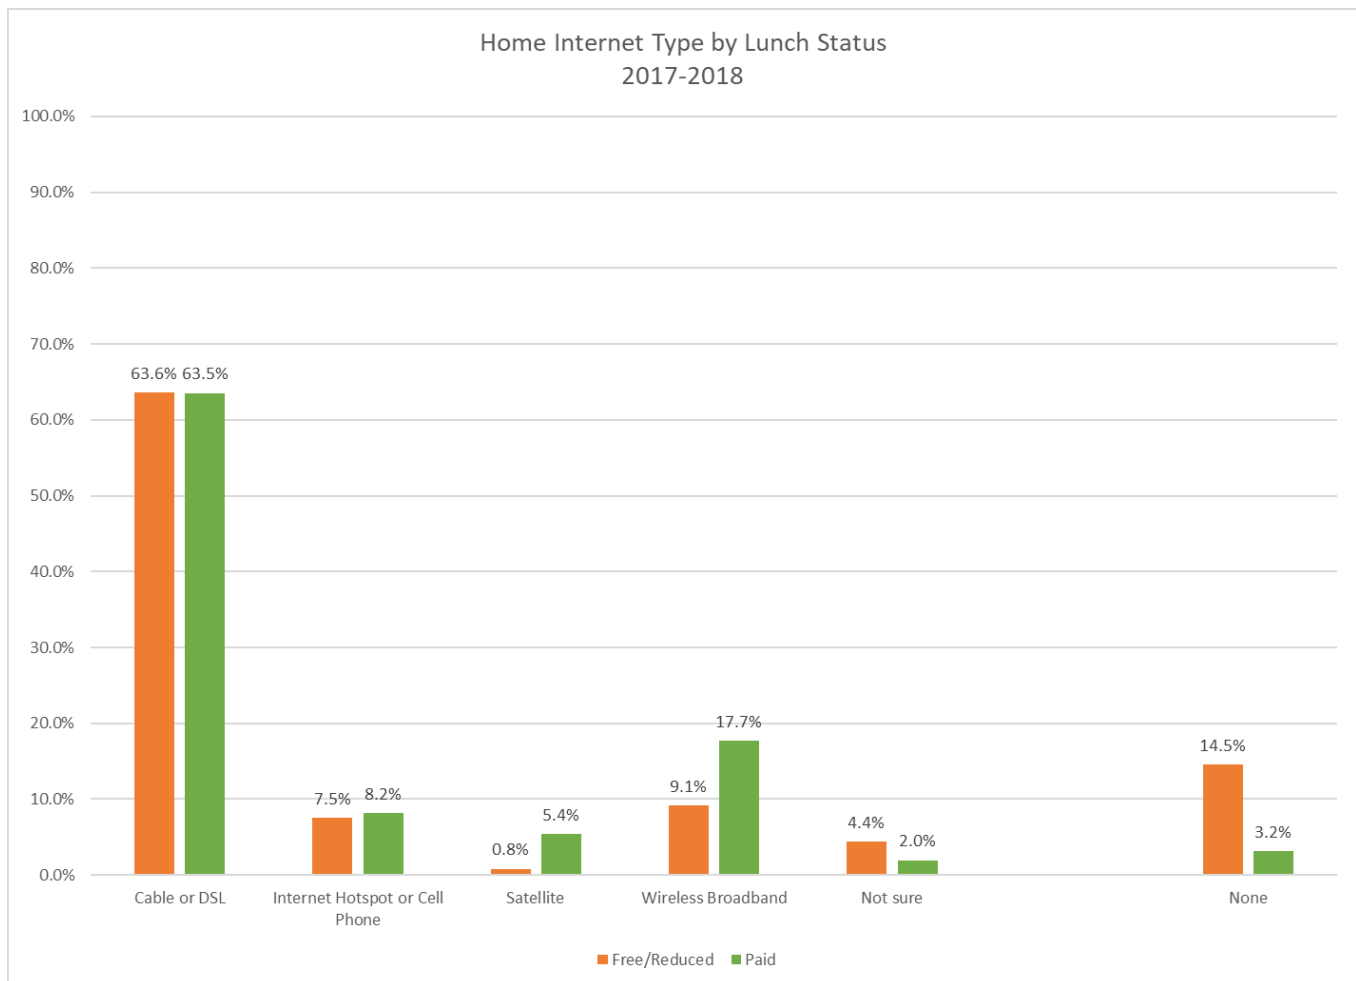

We started collecting information from families at the time of registration to begin to understand what is available to students at home and what they could bring to school. Some school districts have created bring-your-own-device (BYOD) programs that allow students to leverage their own personal technology during the school day. For schools that have supplied students with devices, schools often wonder what speed and type of Internet access is available to those students when they go home.

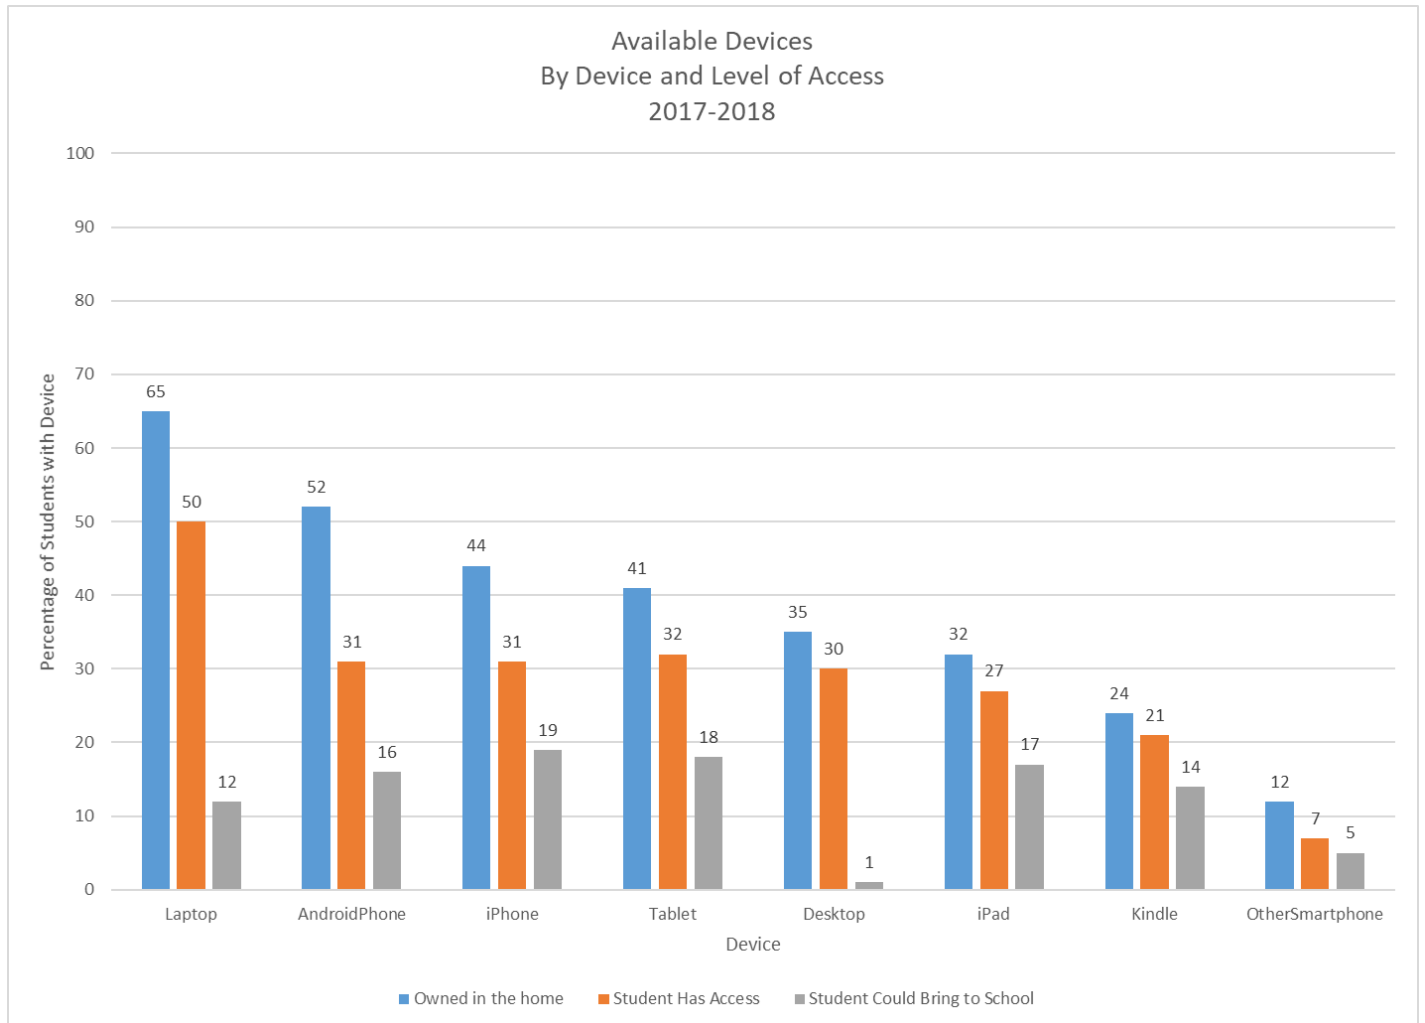

The first chart summarizes the Internet access at home, broken down by school. About 9% of students do not have Internet access available to them. The most common types of access include Cable/DSL and Wireless Broadband.

We are presently working with our Internet providers (ICN and Comcast) to see what can be done to provide access to families when students are at home. We have seen some innovative practices at conferences, including supplying 4G hotspots, hanging Wide Area Network (WAN) access points on utility poles, and even equipping buses with access points and parking them overnight in highly-populated areas with low Internet saturation. One data analysis project we are currently investigating is whether we can geocode student address information well enough to determine where our high-needs areas are.

This chart summarizes the same data, but breaks categories down by lunch status. More students from impoverished backgrounds (14.5% versus 3.2%) have no Internet at home. Greater proportions of paid students see satellite or wireless broadband Internet access. This might be expected, given that these are two of the more expensive Internet options available.

Next, we analyze the devices available to students and whether they can be brought to school. Laptops, Android phones, and Apple iPhones are the most commonly-available devices. Few students would be able to bring these devices to school. One interesting response indicated that a student would be able to bring a desktop computer to school.

Very few homes seem to have Chromebooks. A smaller proportion of students can use them in the home, and a smaller proportion yet could bring them to school. This is of particular interest because Chromebooks are a strong contender for serving as the 1:1 device when the district is able to purchase a full fleet. Most families would have no experience with a Chromebook in the home, which might make it important to have training available for families who are struggling to connect the device to in-home wifi

StudentTracker Reports

We have used the StudentTracker project to follow students in their postsecondary enrollments since the 2010-2011 school year. In our initial data file, we went all the way back to the Class of 2004 so we could have historical data from the start. Every November, the National Student Clearinghouse matches our graduates file with current college enrollments and sends us a new report. The new reports, including the Class of 2017 and enrolments from the 2017-2018 school year, are attached.

Respectfully Submitted,

A handwritten signature in blue ink that reads 'Adam P. Larsen'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Adam P. Larsen
Assistant Superintendent
Oregon CUSD #220

Graphs (in order of appearance)	Description
Percent of Students Enrolled in College the Fall Immediately Following Graduation From High School (pp. 2-5)	Percentage of high school students who enrolled in a two- or four- year postsecondary institution in the fall semester immediately following graduation. The fall semester immediately following graduation is defined as any enrollment that occurs between August 15 and October 31. Shown only for classes which have completed a fall semester.
Percent of Students Enrolled in College at Any Time During the First Year After High School (pp. 7-10)	Percentage of high school students who enrolled in a two- or four-year postsecondary institution in the academic year immediately following graduation. The first year after high school includes any enrollment that occurs between August 15 of the graduation year and August 14 of the following year . Shown only for classes which have completed the first year after high school.
Percent of Students Enrolled in College at Any Time During the First Two Years After High School (pp. 12-15)	Percentage of high school students who enrolled in a two- or four-year postsecondary institution in the academic year immediately following graduation. The first two years after high school includes any enrollment that occurs between August 15 of the graduation year and August 14 of the second year .Shown only for classes which have completed the first two years after high school.
Percent of Students Enrolled in College the First year After High School Who Returned for a Second Year (pp. 17-20)	Percentage of students who remained enrolled in postsecondary education from the first year to the second year. Note: The graphs show the percentage of students who remained enrolled at any postsecondary institution, not retention at the same institution. Shown only for classes which have completed the first two years after high school.
Percent of High School Class with a College Degree Within Six Years (pp. 22-25)	The six-year degree completion at two- and four- year institutions. Shown only for classes which have completed the six years after high school. Only associate's, bachelor's, and advanced degrees are counted in these rates. Certificates are not included.
Time to College Graduation Within Six Years (p. 27)	This graph shows the time to first degree broken down by the number of academic years since the students graduated from high school.
Class of XXXX Postsecondary Enrollment and Progress (each class year is on its own page)	<p>Progress of a single class of students through postsecondary education. Each segment of the bar chart corresponds to one of the following definitions:</p> <p>GRADUATED: Student has completed an associate's, bachelor's or higher degree (certificates are not included). Once a student is counted as a graduate, he or she is not counted again elsewhere in the report. A graduated record is reported before all other possible categories (e.g. New to College, Retained, etc.)</p> <p>NEW TO COLLEGE: First year that the student was found in the Clearinghouse database.</p> <p>RETAINED: Student was enrolled during the previous year and continues to be enrolled in the current year. The graphs show the student's continued enrollment at any postsecondary institution, not retention at the same institution.</p> <p>RETURNED AFTER STOP OUT: Student was enrolled, did not appear in postsecondary education the following year, and reappeared in a year thereafter.</p> <p>NO LONGER ENROLLED & NOT GRADUATED: Student was enrolled in postsecondary education, but currently is not and there is no record of completion.</p> <p>NOT IN NSC TO DATE: Student was not found in the Clearinghouse database. (Note: Institutions that participate in the Clearinghouse represent more than 93% of the nation's two- and four- year postsecondary enrollment. Students who are enrolled in postsecondary institutions that do not participate in the Clearinghouse are not in the Clearinghouse database.</p>
Most Common Institutions of Enrollment in the Fall Immediately Following Graduation from High School for All Classes by Number of Students	List of the postsecondary institutions where students are most likely to enroll first after they graduate high school.

Term	Definition
High School Class (labeled by graduation year)	Includes all students who graduated high school between September 1 of the previous year and August 31 of the graduation year.
Academic Year	Defined as any collegiate enrollment that occurs between August 15 of one year and August 14 of the following year.
Institutional Level	Indicates the level of degree predominantly offered by the institution (i.e. two-year or four-year).
Institutional Type	Indicates whether the institution is controlled publically or by a private entity.
Institutional Location	Indicates if an institution is in-state or out-of-state based on the comparison between the states where the institution and the high school are located.
