PRESSPlus 2. Student activity funds are under the school board's control, giving it a fiduciary responsibility to safeguard them along with district assets. In contrast to *fiduciary funds* (see PRESS Plus Comment 3), the board, superintendent, or other district employees have direct involvement in how *student activity funds* are spent or attained. And, unlike fiduciary funds, student activity funds must be reported as part of a district's Educational Fund for its annual financial reporting and budget, in accordance with *Governmental Accounting Standards Board Statement No. 84*. 23 Ill.Admin.Code §§100.80(e), 100.85. **Issue 106, November 2020**

PRESSPlus 3. Fiduciary funds are funds "received from an independent, outside source in which the school board is acting in an administrative capacity." Unlike student activity funds, where "[t]he school board, superintendent, or district employees have direct involvement with the decisions of how the funds are spent or attained," a district has no control over how fiduciary funds are spent or raised. 23 Ill.Admin.Code §§100.20, 100.80, and 100.85.

See 23 Ill.Admin.Code §100.85 for the specific characteristics and permitted activities of a fiduciary fund. Boards must take a number of specific actions for fiduciary funds that are delegated to the superintendent or designee in this policy and align with

IASB's *Foundational Principles of Effective Governance*, at www.iasb.com/principles_popup.cfm. 23 III.Admin.Code §100.85(b). Boards should consult their local auditors for guidance on whether a particular fund should be classified as a student activity fund or fiduciary fund.

Questions and Answers:

***Required Question 1. A *registered apprenticeship program* is an industry-based occupational training program of study with standards reviewed and approved by the U.S. Dept. of Labor that meets characteristics set forth in State law and ISBE rules. The introductory sentence and listed items 1, 3, 4, and 6 are required to be in the policy if a board decides to allow students to participate in registered apprenticeship programs. See 23 Ill.Admin.Code §255.200(b). Item #2 is not required to be stated in policy, but is required to be included in a district's website notification (if any) to parents/guardians about registered apprenticeship opportunities.

Allowing for this substitution is optional, but, if offered, must be included in board policy, and the policy must be posted on the district's website (if any) for students, parents, and members of the business and industry community to access. 105 ILCS 5/2-3.175, added by P.A. 100-992, renumbered by P.A. 101-81; 23 Ill.Admin.Code §255.200.

6:320 High School Credit for Proficiency

Proficiency Credits

Subject to the limitations in this policy and State law, the Superintendent is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

Proficiency credit will be offered in the following subject areas:

Foreign language - A student is eligible to receive one year of foreign language credit if the student has graduated from an accredited elementary school and can demonstrate proficiency, according to this District's academic criteria, in a language other than English. A student who demonstrates proficiency in American Sign Language is deemed proficient in a foreign language and will receive one year of foreign language credit. A student who studied a foreign language in an approved ethnic school program is eligible to receive appropriate credit according to the level of proficiency reached; the student may be required to take a proficiency examination.

Other proficiency testing - The program for granting credit for proficiency may allow, as the Superintendent deems appropriate, course credit to be awarded on the basis of a local examination to a student who has achieved the necessary proficiency through independent study or work taken in or through another institution. Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program.

Course Credit for High School Diploma

The Superintendent or designee may investigate, coordinate, and implement a program and schedules for students in grades 7 and 8 to enroll in a course required for a high school diploma.

Students in grades 7 and 8 may enroll in a course required for a high school diploma when: (1) the course is offered by the high school that the elementary student would attend, or the Regional Office of Education, (2) the student participates in the course at the location of the high school or Regional Office of Education, and (3) the student's enrollment in the course would not prevent a high school student from being able to enroll.

A student that successfully completes a course required for a high school diploma while in grades 7 and 8 shall receive such academic credit from the Board. That academic credit shall satisfy the requirements of Section 27-22 of the School Code for purposes of receiving a high school diploma, unless evidence about the course's rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken. The student's grade in the course shall also be included in the student's grade point average in accordance with Board policy.

7:140 Search and Seizure

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there. This paragraph applies to student vehicles parked on school property. In addition, Building Principals shall require each high school student, in return for the privilege of parking on school property, to consent in writing to school searches of his or her vehicle, and personal effects therein, without notice and without suspicion of wrongdoing.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students,
2. In the presence of a school administrator or adult witness, and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Notification Regarding Student Accounts or Profiles on Social Networking Websites

The Superintendent or designee shall notify students and their parents/guardians of each of the following in accordance with the Right to Privacy in the School Setting Act, 105 ILCS 75/:

1. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.
2. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.
