Subject: Great post, Michelle!

Hello Michelle,

Thank you for sharing this on Beyond Textbooks:

https://www.beyondtextbooks.org/6th-8th/Seventh_Grade/Math/Standards/7.M.EE.B.04a/Teacher_Submitted_Resources/Worksheets/Parallel_Assessment

You have created a helpful parallel assessment for a seventh grade math standard on creating models and solving real world problems involving equations and rational coefficients. This test mirrors the design of a formative with three multiple choice and two extended response questions. It will arm teachers with an additional resource to obtain valuable feedback on their students' level of understanding of the standard. It can be used in various ways, such as a practice assignment to prepare for the official formative or for reteach purposes for students needing additional practice.

Michelle, thank you again for creating and sharing this resource on BT!

Sincerely,
Kristin King
