

Hero Awards – Nomination

Name

Oregon School District Nurses

Hometown

Oregon Area

Brief Description of “Hero” Actions

School nurses went above and beyond working with students and families.

Chamber Giving Award

Oregon Area Chamber of Commerce

Examples of “Hero” work to earn award?

Oregon, IL school nurses have been the people responsible for keeping track of Covid numbers. They have to contact trace when someone is positive, and spend many extra hours calling families to inform them that their child has to quarantine. This is not always accepted positively. They do an amazing job, treating all parents with kindness and compassion. They also answer questions from staff and administrators while maintaining confidentiality and working hard to put people's minds at ease regarding the virus. On top of this, they all continue to be excellent health aides, providing our students with all they need related to feeling ill at school. Their names are from top left to right, bottom left to right: Sharon Hoover, Jennifer Hernandez, Sara Rowe, Lindsey Breedon.
